

## Call for Paper! SAWAE-ISAST 2025

In 2025, the **Southeast Asia Workshop on Aerospace Engineering (SAWAE)** and the 11th **International Seminar on Aerospace Science and Technology (ISAST)** will be combined into a single prestigious event, bringing together researchers, academics, and industry experts in aerospace engineering and technology. This joint conference aims to enhance collaboration, foster interdisciplinary discussions, and provide a comprehensive platform for sharing the latest advancements in the field. By merging SAWAE's focus on regional aerospace research with ISAST's broader international scope, the event will offer an enriched experience with diverse perspectives, cutting-edge insights, and expanded networking opportunities.

ISAST at Glance

### Paper Submission and Topics Covered

The committee cordially invites submission of unpublished research papers in the following areas. Papers in other related areas to aerospace field are also welcomed.

- Aeronautics

► Astronautics

► Aviation

### Submission Guidelines

Kindly use the designated paper template for your submission. You may format your paper according to your preferred publication type. For SAWAE 2025, there are two available publication options, each associated with different conference fees.

1. Journal of Aeronautics, Astronautics & Aviation

2. SPRINGER BRIN

Each submitted paper should ideally be at least six pages long to ensure sufficient content and maintain a high-quality standard for publication. While authors may select their preferred publication type during submission, the final decision will be determined based on the peer-review process and the specific requirements of the journal. Authors will be notified of the final publication type after the review process is completed. For submissions to the Scopus-indexed Journal of Aeronautics, Astronautics, and Aviation (JoAAA), final acceptance will be subject to an additional review by the journal, beyond the initial evaluation conducted by the conference's panel of reviewers.

Given the anticipated length of the review process, participants intending to submit their papers for publication in the Scopus-indexed Journal of Aeronautics, Astronautics, and Aviation (JoAAA) are strongly encouraged to submit as early as possible. The review process for each submission will commence as soon as the conference committee receives the paper.

All paper submissions must first be uploaded through our online submission platform via the link provided below. Authors are required to register before submitting their papers. For those submitting to the Scopus-indexed the Journal of Aeronautics, Astronautics, and Aviation (JoAAA) or BRIN Springer please select the appropriate section: **"Journal of Aeronautics, Astronautics & Aviation,"** or **"BRIN Springer,"** accordingly.

Click your option below for the corresponding paper template.

### Important Dates and Registrations

### Registrations Categories & Fees

Note that the conference fee is already inclusive of admission of one person to the conference program, conference goodies bag, conference publication and conference meals.

#### Participant with Publication in SPRINGER BRIN

Category	Early Bird	Regular	Late
Students (Local)	Rp700,000	Rp900,000	Rp1,350,000
Non-Students (Local)	Rp1,000,000	Rp1,350,000	Rp1,800,000
Students (International)	\$58	\$75	\$110
Non-Students (International)	\$90	\$135	\$158

#### Participant with Publication in Journal of Aeronautics, Astronautics, and Aviation.

Category	Early Bird	Regular	Late
Students (Local)	Rp700,000	Rp1,000,000	Rp1,500,000
Non-Students (Local)	Rp1,200,000	Rp1,500,000	Rp2,000,000
Students (International)	\$65	\$80	\$120
Non-Students (International)	\$100	\$150	\$175

#### Listeners

- Local: Rp. 500,000

• International: 50 USD

### SAWAE at Glance

The Southeast Asia Workshop on Aerospace Engineering (SAWAE) is an annual international workshop organized by the Southeast Asia Network on Aerospace Engineering (SANAE). This event aims to explore the latest research and advancements in aerospace engineering and aviation, facilitate knowledge sharing and discussions among participants, and foster opportunities for future research collaborations and academic partnerships.

We are delighted to invite professors, researchers, scientists, and students to the **9th** Southeast Asia Workshop on Aerospace Engineering (SAWAE), which will take place in Bandung, Indonesia, from 5th to 7th August 2025. This edition of SAWAE will feature a diverse range of keynote speeches and oral presentation sessions, covering various topics related to aerospace engineering and aviation.

### ISAST at Glance

The 11th International Seminar on Aerospace Science and Technology (ISAST) 2025 is an international forum dedicated to advancing research, innovation, and collaboration in the field of aerospace science and technology. Bringing together experts, researchers, academics, and industry professionals from around the world, ISAST serves as a platform to exchange knowledge, discuss cutting-edge developments, and explore emerging trends shaping the future of aerospace engineering.

Scheduled to take place in Bandung Indonesia on 5-7 of August 2025, ISAST 2025 will feature keynote speeches from leading aerospace experts, technical paper presentations, and panel discussions covering a wide spectrum of topics, including aerodynamics, propulsion, avionics, space exploration, unmanned aerial systems, and sustainable aviation technologies. This seminar aims to foster interdisciplinary collaboration, strengthen industry-academia partnerships, and provide an avenue for researchers to showcase their latest findings.
